As a frontend developer with three years of experience, I am committed to continuous learning and staying at the forefront of emerging technologies. I have a proven ability to quickly adapt and excel in new environments and am eager to take on new challenges to further apply my skills in developing innovative web and mobile applications.

EXPERIENCE

Fullstack Engineer (React & Next.js & Node.js & Typescript & Mentor)
LineDevLTD

Aug 2024 - Present

- Developed and maintained “Lano Pet Shop” and “Lano Admin Panel”, creating user-friendly e-commerce experience.
- Developed and maintained "TechGazeta", a full-stack technology blog platform featuring a custom admin panel, user profile management, and a dynamic post system. Built single post pages with real-time commenting functionality, Next/Previous post navigation, infinite scroll with skeleton loading animations, and search, filtering, and sorting capabilities. Integrated TanStack Query for efficient data fetching, caching, data hashing, and query invalidation to ensure real-time data consistency. Engineered custom React hooks to modularize and optimize data handling. Focused on delivering a responsive, high-performance, and seamless user experience across frontend and backend.
- Developed and maintained “LineDevLTD personal website” highlighting the company’s expertise and enhancing its online presence.
- Developed and maintained “Jujuna Wine&Cocktail Shop” a visually stunning and responsive platform showcasing premium wines and their stories.
- Mentored [Gia Grigalashvili](#), [Levani Mesxia](#), and [Anar Aliev](#) through multiple projects, providing guidance on React, TypeScript, React Query, custom hooks, data handling, skeleton loading, and scalable project structures. Helped them achieve significant growth and success during the mentorship period by focusing on best practices, real-world problem-solving, and clean architecture.
